

THE NEW EROMOBIL® STARTER CASE

Quick and practical with everything to hand!

The new eromobil® starter case contains the optimum equipment in terms of the materials and tools you need when using your eromobil®. The robust hard shell case, with its intelligent inner workings, accommodates the tools and materials perfectly, and stores them in a well-organized and safe way. And even if you already have an eromobil®, the eromobil® starter case still offers numerous advantages.

Your advantages: No lengthy searches, with everything immediately to hand

- Save up to 20% when buying the starter case in comparison to ordering individually
- No long delivery times in comparison to ordering individually
- Simply re-order parts from the case once depleted
- Stowed practically and quickly to hand

Our service: Personalised equipment according to your requirements

We put together a case tailored to your individual wishes, customised in terms of electrodes, collets, with and without WiFi inspection camera
